27	49.75	SD	Off	07974000	Lincoln County	G.Kunz Bridge No. 63011	387,100
28	49.88	SD	Off	08172200	Lincoln County	Perry Bridge	363,275
RECOMMENDED FOR FUNDING						TOTAL RECOMMENDED: \$18.83 M	

Spokane County's Barker Road Bridge over the Spokane River was not selected because the Committee felt that the primary driver behind this project was a capacity issue rather than structural concerns, and that the bridge could be repaired adequately to address current structural concerns.

Snohomish County's Deer Creek bridge was not selected because of the number and age of past bridge projects Snohomish County has on the books that have not been completed, reflecting an inability to deliver projects. In addition the technical committee rated this particular project as a "Good" candidate for replacement in only one category.
